# iQ <br> parts 

NS6 SERIES CONNECTOR

NS6 Series couplings couplings feature non-spill valves at a great price. Use the NS6 when even a few drops of spillage pose problems regarding safety, media cost or environmental regulations. These innovative couplings are lightweight, chemically resistant and easy to use. The non-spill design virtually eliminates spills, minimizes downtime and enhances operator safety. Soft touch overmold makes them comfortable in the hand and very attractive.

| FEATURES | BENEFITS |
| :--- | :--- |
| Non-spill design | Disconnect under pressure with no spills |
| Color coding | Instant visual differentiation of media lines |
| Glass-filled polypropylene | Durable and compatible with many <br> chemicals |
| CPC thumb latch | One-hand connection and disconnection |

## Specifications

## PRESSURE:

Vacuum to 120 psi, 8.3 bar

## TEMPERATURE:

$32^{\circ} \mathrm{F}$ to $160^{\circ} \mathrm{F}\left(0^{\circ} \mathrm{C}\right.$ to $\left.71^{\circ} \mathrm{C}\right)$

## MATERIALS:

Main components and valves:
Glass-filled polypropylene with TPV* soft touch overmold
Thumb latch: Glass-filled polypropylene
Valve spring (wetted): 316 stainless steel
External spring: 316 stainless steel
0-rings: EPDM

## COLOR:

Gray with dark gray overmold standard; gray with red or blue overmold available $\dagger$

TUBING SIZES:
$3 / 8$ " and $1 / 2^{\prime \prime}$ ID, 9.5 mm and 12.7 mm ID
LUBRICANTS: Krytox PPFPE (inert)

## SPILLAGE:

~0.03 cc per disconnect @ 0 psi, $\sim 0.30$ cc/ disconnect @ 120 psi

INCLUSION: 0.42 cc per connect
*The overmold material is a TPV (thermoplastic vulcanizate). This TPV is an alloy of polypropylene thermoplastic and fully vulcanized EPDM rubber. The material is typically resistant to water, acids and bases.
†NOTE: Standard product is gray; color options require a set-up charge and minimum quantities. Please contact CPC for details.

[^0]:    $\gg$
    These graphs are intended to give you a general idea of the performance capabilities of each product line. The shaded area of each graph represents the operating range of the product family, i.e., upper and lower values are shown. Therefore, depending on the exact coupling configurations selected, you can reasonably expect values to fall within the shaded area.

[^1]:    All measurements are in inches (millimeters) unless otherwise noted. Tubing must meet stated inside and outside diameters. Couplings are pictured with valves unless otherwise noted.
