BBC - Back to Back Clips

Our Back to Back Clips are designed as a solution to installing two channelled panels back to back. The foot slides into the channel on the first panel, with the second panel secured via an M8 square head bolt through the opposite end of the clip. Manufactured from Grade 304 stainless steel, these clips are suitable for use on posts 50mm- 219mm.

Back to Back clips must be used in pairs, placed either side of each post.

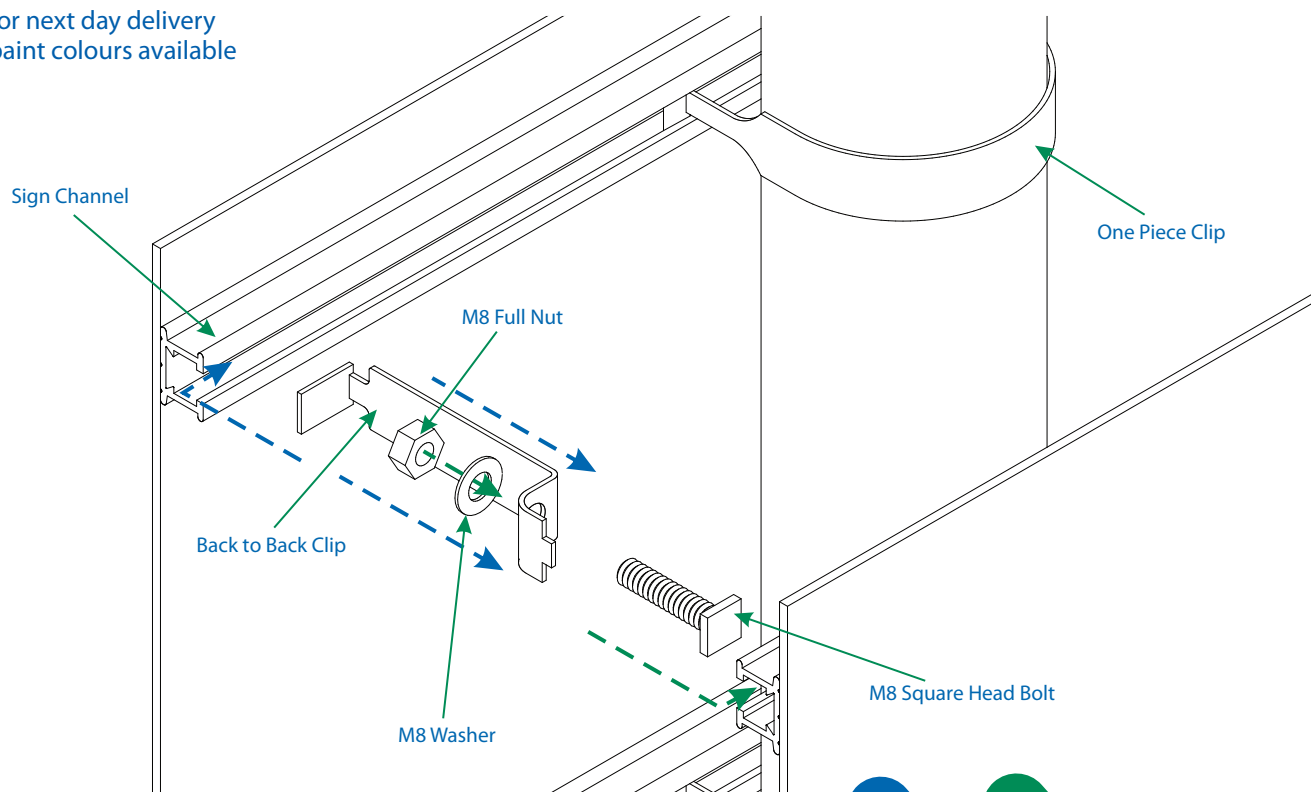

Back to Back Clips are stocked as self colour only but can be painted to a bespoke colour.

Key Facts
