# LLC - Long Legged Clamps

Long Legged Clamps are designed as a solution to mounting a sign between two posts, rather than onto. The clamp uses 1 x M8x25mm hex head bolt, nut and washer, bolted directly through the panel and is then tightened around the post. Manufactured from Grade 304 stainless steel for 50 - 89mm round posts, these clamps are designed to be used in pairs, on either side of the panel.

Our Long Legged Clamps are stocked as self colour only but can be painted to a bespoke colour.

## Key Facts

- 4 sizes available from stock
- Grade 304 Stainless Steel
