INFORMATION**

UNI - Uni-Clamp Brackets (Aluminium)

Our Uni-Clamp Bracket is a two-piece aluminium fixing that clamps around the circumference of a round post using 2x M8x35mm hex head bolts, nuts and washers.

We manufacture these to suit post diameters of 76mm and 89mm. Uni-Clamps can be used in conjunction with Offset Brackets to clamp them in place to create finger post signs.

The Uni-Clamps come with 2 additional holes punched into the square half of the bracket, allowing for a panel to be attached directly to the bracket.

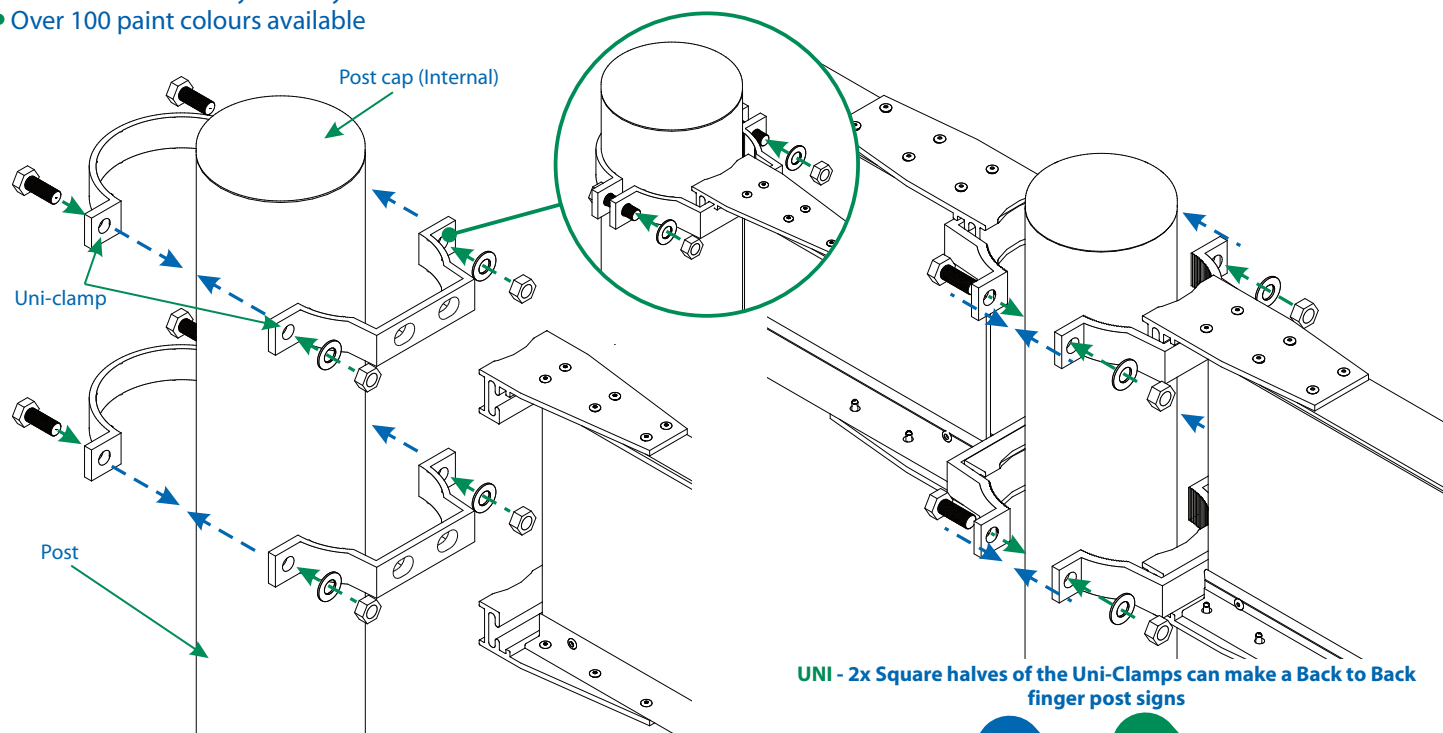

Our Uni-Clamps are stocked in both Grey and Black, as well as Self Colour, in both sizes. Bespoke colours are available upon request.

UNI - Uni-Clamp Brackets in grey
